📍 Cam Le District, Da Nang City

## Education

Information Technology

The University of Science and  
Education, University of Danang

GPA: 3.4/4.0

## Skills

**Programming Languages:** Java, C#,  
JavaScript, TypeScript

**Backend Frameworks:** Spring Boot,  
ASP.NET, NodeJS, NestJS, ExpressJS

**Frontend Frameworks:** ReactJS,  
TailwindCSS, Bootstrap

**Database:** MySQL, MongoDB, Redis

**Tools:** Visual Code, Postman, IntelliJ  
IDEA, Visual Studio Code, Docker, Git

## Certifications

Mar 2024 TOEIC 700 (IIG Vietnam)

## Honors & Awards

Dec 2022 3rd Place – LQDOJ Cup  
National Final Round  
(University Division)

## Summary

I'm a final-year student with a strong passion for backend development and software engineering. I'm currently seeking an opportunity where I can apply the skills I have gained through coursework, personal projects, and collaborative team efforts. My goal is to make meaningful contributions to real-world projects, continue learning from experienced professionals, and develop into a proficient backend developer.

## Projects

Fullstack Developer

Sep 2024 - Dec 2024

### Next-Tech Ecommerce Website

**Summary:** An e-commerce website where users can browse, search, filter, and purchase products. Users can also manage their personal profiles by updating their account information and preferences. On the admin side, it provides features such as adding and updating products, managing orders and users, and tracking sales through detailed statistics.

**Technologies:** ReactJS, TypeScript, Tailwind CSS, Ant Design, TanStack Query, Axios, Cloudinary, Spring Boot, Spring Security, Spring Data JPA, JWT, Swagger, MySQL, Redis, Git.

Fullstack Developer

Mar 2025 - Jun 2025

### Job-Seeking

**Summary:** A recruitment platform that allows users to apply for available positions within a company, while enabling admins to manage companies, job listings, and applicant resumes. The platform utilizes AI to provide chatbot support and suggestions, enhancing the user experience and encouraging more interaction.

**Technologies:** ReactJS, Redux, Ant Design, Axios, TailwindCSS, GoogleAI, NodeJS, NestJS, TypeScript, JWT, PassportJS, Mongoose, BcryptJS, MongoDB, Swagger, Git.
